

PART 1:

Making a Matched Dataset

(*Toward Justifying As-If Randomization*)

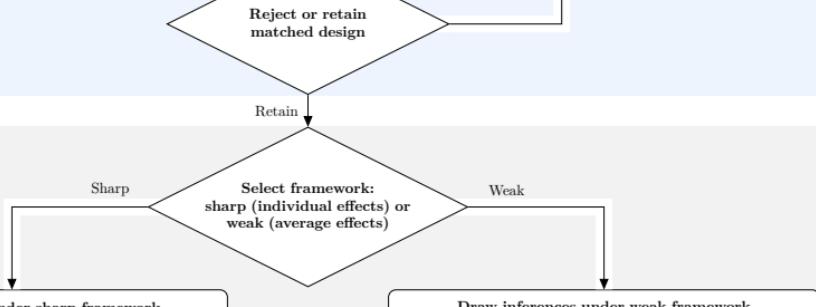

Reject

PART 2:

Causal Inference

(*Under As-If Randomization*)

PART 3:

Sensitivity Analysis

(*Departures from As-If Randomization*)

Evaluate sensitivity under sharp framework

- R: senestrat
- Rosenbaum (2018)

Evaluate sensitivity under weak framework

- R: custom function (included herein)
- Fogarty (2023)
